

Facility Manager for Incubation Activity at IIT Hyderabad

No of Vacancies: 3

Salary: Consolidated 50K per month

Duration: 2 years (extendable)

Brief Introduction about Incubation Activity at IIT Hyderabad:

With a vision to foster ecosystem that promotes start-ups working on deep-tech innovations, IITH hosts three incubators in its premises. The most generic incubator that promotes deep-tech innovations spanning different domains is the i-TIC Foundation IIT Hyderabad, a society that is aimed at translating innovations at IIT Hyderabad into commercially successful products. At present, it hosts incubates in the areas of 5G, IoT, Agri-tech, miniaturizing mass spectrometers, renewable energy to name a few. Apart from this incubator, IIT Hyderabad has launched two specific, unique incubators that cater to specific areas that could potentially have a deep impact on economy. Centre for Healthcare Entrepreneurship (CfHE) is established to create India specific health care solutions. Fabless Chip Design Incubator (FabCI) aims to help startups design silicon chips for the semi-conductor industry.

Job Description:

The primary responsibility of this job is to manage the afore mentioned incubators in tandem and in consultation with the Faculty In-Charge of the incubators. The key responsibilities include

1. Management of incubator(s) in consultation with the Faculty In-Charge for the incubator.
2. Setting up of relevant infrastructure/ecosystem that promotes incubation activities
3. Proactive approach in inducting new incubates.
4. Help develop strategies to market the products developed by incubates
5. Developing strategies for fund generation to the incubator.
6. Help developing marketing and promotion strategy for incubator as well as incubates through social and main stream media

Eligibility and requirements:

- MBA degree from a reputed institution / college
- Prefer minimum 2 years of work experience; in exceptional cases could consider fresh graduates.
- Ability to work in a team
- Excellent verbal and written communication skills
- Ability to network with academia and business professionals
- Professional approach to establishing and maintaining business contacts.
- Willingness to travel for work purpose

The deadline for receiving resumes is 15th Jan 2019.
